MONO-ISOCYANATE TEST-KIT

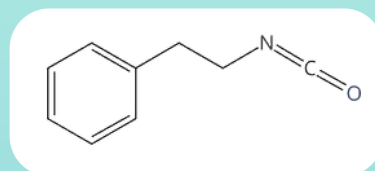

4x 5g for 650€

Our test kit of selected isocyanates, ranging from **aliphatic** and **aromatic** to **functionalized** and **cyclic** compounds. It is ideal for comparing their reactivity, steric properties, fit and versatility in specific applications, as well as for exploring new formulation approaches, especially when the exact direction of your project is not yet clear.

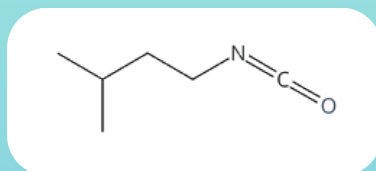

Cyclohexylisocyanate
CAS 3173-53-3

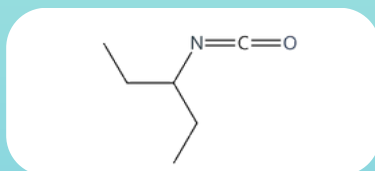

2-Phenylethylisocyanate
CAS 1943-82-4

Iso-Pentyl isocyanate
CAS 1611-65-0

3-Isocyanatopentane
CAS 42065-78-1

Special discounted pricing **available until 8th May 2026.**

 **Larger quantities available!**

Send your request for custom quotes up to 100 kg to anna@cynio.net or get in touch with us directly.

OFFER

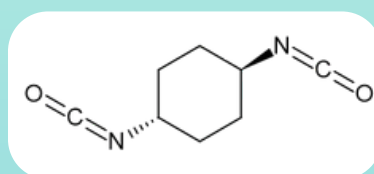

CHEMSPEC DI-ISOCYANATE OFFER

100g for 650€

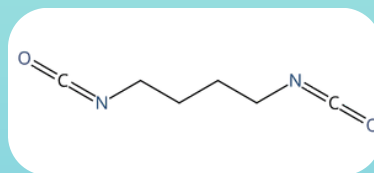

Used as an aliphatic di-isocyanate for light-stable, non-yellowing polyurethane systems. You can find it in high-performance **coatings**, **fibers**, and polyurea **elastomers** as well as an intermediate for specialty **polymers** such as polyimides.

Applicable in polyurethane synthesis for **biomedical applications**, such as drug delivery systems and biomaterials. Used as a cross linking agent for specialized **coatings** and **adhesives** or a chain extender in segmented polyurethanes.

trans-1,4-Cyclohexylendiisocyanate
CAS: 7517-76-2

1,4-Diisocyanatobutane
CAS: 4538-37-8

Special discounted pricing **available until 8th May 2026**.

 **Larger quantities available!**

Send your request for custom quotes up to 100 kg to anna@cynio.net or get in touch with us directly.
